गुरुर्ब्रह्मा गुरुर्विष्णुः गुरुर्देवो महेश्वरः।
गुरुः साक्षात् परं ब्रह्म तस्मै श्री गुरुवे नमः॥

*“I bow to my most revered Guru Ji.
Engineer Shri Rabindra Nath Chaturvedi Ji”*

The knowledge of astrology, spirituality and yoga that I got from Guru ji, after which I was able to understand the nuances of life and astrology, for which I express my heartfelt gratitude.

Our greatest strength and strength is our revered grandfather "Engineer Shri Rabindra Nath Chaturvedi Ji" who established the first "Nakshatra Astrology Research Center" based on Krishnamurti system of astrology in North India in the year 1965.

In the sixties, when he heard and read about Gururji Shri K.S.K Ji and his method, he became his follower. Dada ji was an engineer in the irrigation department and in the last many years thousands of Women, Scientists, Lawyers, Illiterate, Officials, Religious Leaders etc. have been taught to K.P. (Krishnamurti Paddhati) method.

After the knowledge I got from Dada ji, my life changed, and the only goal of my life became the science of astrology. -
Dr. Yagyadutt Sharma

I have found in my research and study that if the science of astrology is understood in the right way, then a person can correctly assess and guide his life.

This is my prayer to God that the knowledge which I have got from my Gururji, I can further pass it on to this society.

Thank you!

Indian Astrology

Indian astrology is that method of calculating the constellations which has developed in India.

It is a science or scripture that studies the zodiac signs and constellations along with the planets like Sun, Moon, Mars, Mercury and how these celestial elements does affect the people living on the earth and their analysis.

Even today, in India, Panchang is made by this method, on the basis of which religious acts and festivals are celebrated across the country.

The meaning of astrology in ancient India was to study the movement of planets and constellations, that is, the study of the universe. Over a period of time, due to the inclusion of astrology, the meaning of the word astrology changed and now it is considered as the science of seeing the fate of the people.

Astro-Vastu

Vastu Shastra and Astrology are both related to each other. Both can also be said to be complementary to each other. Vastu Vidya is a part of astrology. The purpose of both astrology and Vastu Vidya is to make human life happy. By getting the energy present in the environment in a balanced form through Vastu Shastra, one has to achieve progress, success and maximum positive energy power in life.

Vastu Shastra is incomplete without the knowledge of astrology. A good Vastu Shastri realizes the need of astrology step by step. In Vastu Shastra, each direction is associated with a planet. Knowledge of the qualities, religion and nature of each planet becomes necessary. On analyzing the reasons for different problems and conflicting results in two families living in the same two houses, we find that there is a difference in their Griha Pravesh Muhurta and birth charts.
