Our institute has made "**Nakshtra Gold**" software which is totally different from other softwares available in market. You can feel the difference on very first use. The main purpose of the institution is to remove the misconceptions spread in the field of Astrology and Vastu. Through the Nakshtra gold software, the objective of the institute is to fill the gap between astrology and the native so that anyone can use the software to know the events in his/her life.

Founder of **IIAG JYOTISH SANSTHAN**

Dr. Yagyadutt Sharma Born in Village Panhaida Khurd, Faridabad (Haryana), Elementary education was completed in the native village and higher education was completed in Faridabad district. Every person desires to know his destiny and he takes the help of astrology knowledge at some point of time in his life. In this episode, along with academic education, from the very beginning, my passion was to know the Elements related to Astrology. Due to which visited

Dr. Yagya Dutt Sharma

(MCA, Ph. D)

Scientific Astro & Vastu Consultant

Chennai, Jaipur, Kolkata, Mathura, and other cities to acquire astrological knowledge and got knowledge from different Gurus. But still, I kept on studying my astrology.

But they did not stop working hard and found that whatever you want in life and always strive for it, then it makes a way to reach you one day.

In the meantime, he met the revered Guruvar **Sh. Rabindranath Chaturvedi (Grandfather)** resident of Mathura. And in the presence of him, along with astrology, knowledge of the nuances of Vastu, Spirituality, Cosmic Energy, and Yoga was obtained, due to which the only goal of his life became the science of astrology, I have found in my research and study that If astrology should be understood in the right way, then a person can correctly assess and guide his life. ● ● ●

● ● ● IIAG (NGO) was established by **Dr. Yagyadutt Sharma** in the year 2012 under the guidance of their grandfather. The main objective of the institute is to pass the knowledge acquired by Guru Ji to the next generation. Keeping in view the need of the time, the institute started giving its services globally. In which along with consultancy, knowledge of Astrology, Vastu, and Cosmic Energies was given to the students and researchers. In the meantime, understanding the complexities of astrology, the **Nakshtra Gold** Software was created by the institute so that astrology can be easily understood. Research and Studies are done in the field of Astrology and Vastu Science by the institute.

Today, the credibility of **IIAG** attracts people in society. Astrology and Vastu are two sides of the same coin. The day a person starts seeing his house as his horoscope, then he will find that both the energy of the planet and the energy of the house together affect the life of a person.

Dr. Yagyadutt Sharma worked on the complexities of Astrology as well as Vastu and Cosmic Energy and guided people inspired by spiritual power. Today, the work of educating people in society and counseling is being done continuously by the institute. From time to time, the institute keeps doing its research in Krishnamurti Paddhati and Vastu Science. Through these researches, students and beneficiaries take advantage of it from time to time.

Therefore, my only prayer to God is that I should continue to get the company of Sadgurus in life. And the knowledge which I have got from my Guruji, I can further pass it on to this society.

ASTROLOGY

Many cultures have attached importance to astronomical events, and the Indians, Chinese, and Maya developed elaborate systems for predicting terrestrial events from celestial observations. In the West, astrology most often consists of a system of horoscopes purporting to explain aspects of a person's personality and predict future events in their life based on the positions of the sun, moon, and other celestial objects at the time of their birth. The majority of professional astrologers rely on such systems. Throughout most of its history, astrology was considered a scholarly tradition. It was accepted in political and academic contexts, and was connected with other studies, such as astronomy, alchemy, meteorology, and medicine. At the end of the 17th century, new scientific concepts in astronomy and physics (such as heliocentrism and Newtonian mechanics) called astrology into question. Astrology thus lost its academic and theoretical standing, and common belief in astrology has largely declined.
